

## NEED HELP WITH YOUR ATARI?

### A USER GROUP CAN HELP!!!!

Atari User Groups can assist you in the use of your computer (8-bit and ST). the groups usually meet at least once a month. in addition special interest groups meet separately to discuss specific topics. User Groups can offer you many benefits. A list of some of these follows:

1. Newsletters are provided which discuss current news items of interest, contain articles on programming, review software (both commercial and public domain) and give you miscellaneous information on a variety of topics.
2. All clubs have public domain software libraries. These contain programs written by individuals who have decided not to sell their products, but make them available to anyone who would like them. Some clubs feature Disks of the Month in which they highlight public domain software for a nominal fee.
3. Members have a chance to talk with other individuals with common interests, many of whom have owned Ataris for a long time and are willing to answer questions, give advice and otherwise assist you with your Atari problems.
4. Each club has its own set of features that the members feel are beneficial to them. These features may include flea markets for used software and hardware, raffles, print libraries for borrowing magazines, software rentals, and discounts from neighborhood Atari dealers.

This flyer contains a list of Atari User Groups in Ohio. The first part are those groups of which we are aware of in the Cleveland area. For those of you who live outside this area, we have also included other groups, compiled from various computer magazines dealing with the Atari computer. Unfortunately we have not had the facilities to contact all of them to verify names and addresses.

#### ..... CLEVELAND AREA .....
